We make apps useful in real classrooms

The Grade Book tutorial guide

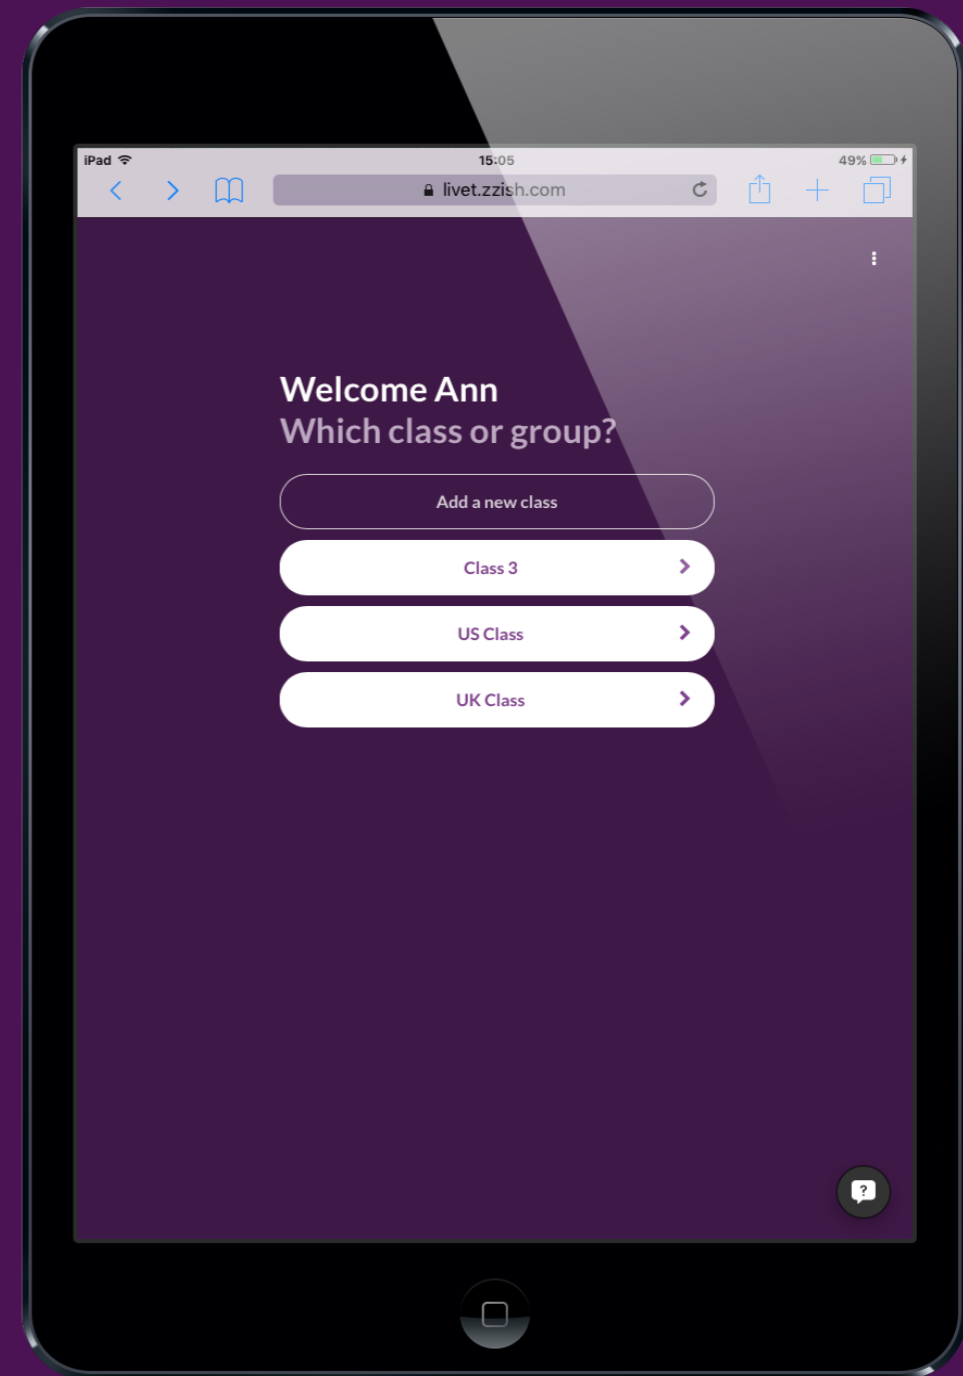

Log in

Log in or sign up using your email address

Choose your class

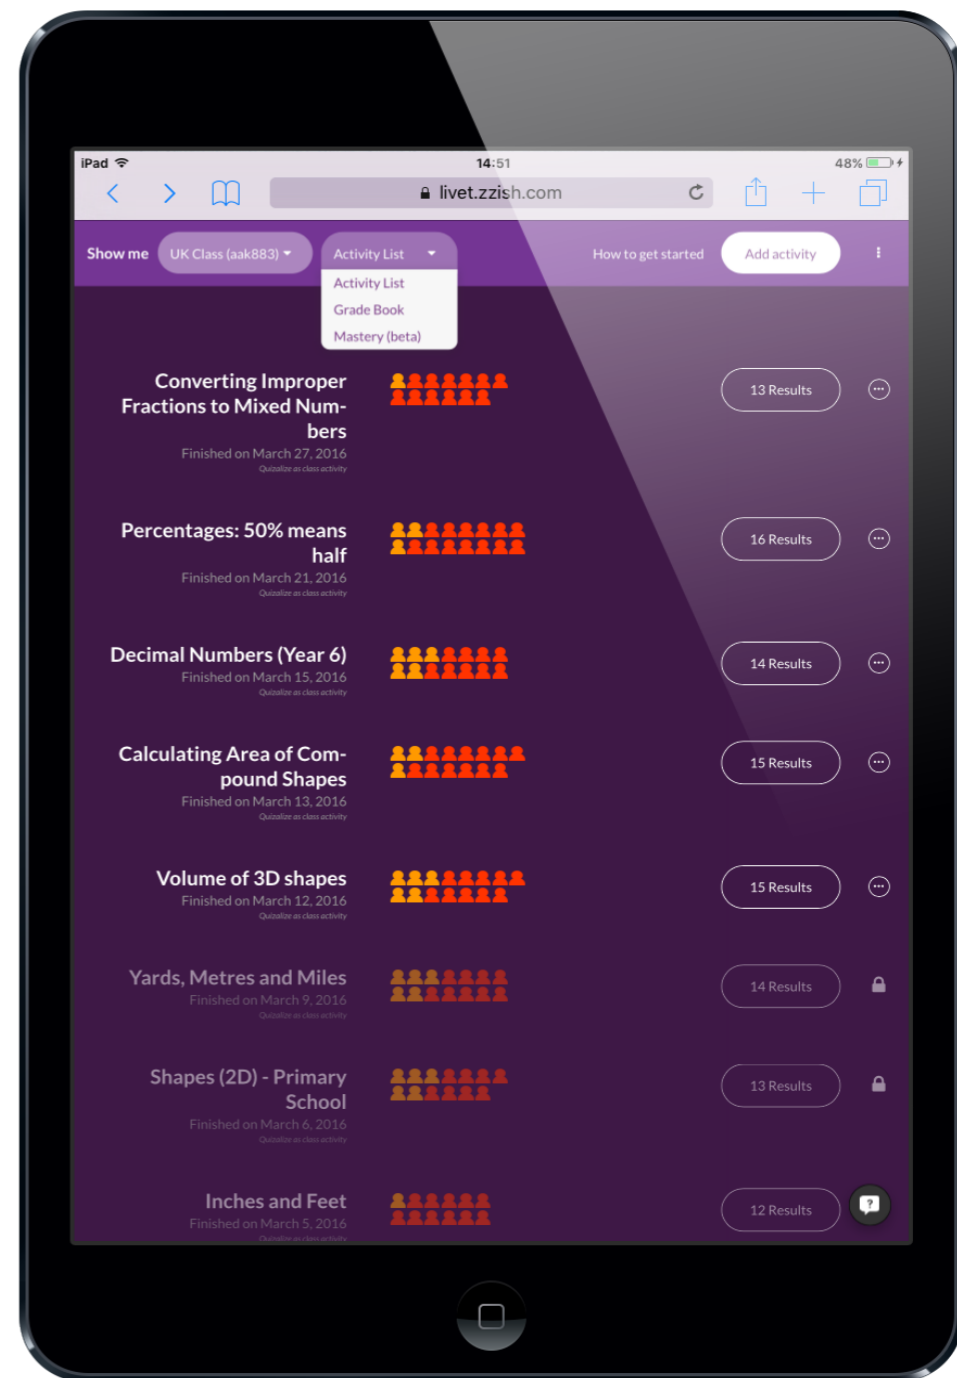

Select the class you would like to manage

Enter **Grade Book** view

Click on **Activity List**

Select '**Grade Book**' from the drop down menu.

Track your students activities

See what activities were assigned and whether they have been completed or not

Track your student's individual progress and scores

It provides different types of grading according to the activity

Our gradebook works out average scores for each student

Free users can view data of up to 5 activities per student, this limit does not exist for premium users
